

Ravi Sharma

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4+ years of experience in machine learning, deep learning, and backend development. Expertise in Python, PyTorch, TensorFlow, and cloud deployment on AWS. Passionate about building scalable AI systems and MLOps pipelines.

SKILLS

Languages: Python, Java, C++, SQL, Bash

ML/AI: PyTorch, TensorFlow, scikit-learn, Pandas, NumPy, Matplotlib, Keras, NLP, Computer Vision

Backend: FastAPI, Django, Flask, Node.js, REST API, Microservices

DevOps/Cloud: AWS (EC2, S3, Lambda), Docker, Kubernetes, GitHub Actions, CI/CD, Linux

Databases: PostgreSQL, MongoDB, Redis, MySQL

Tools: Git, Jira, Postman, Jupyter, MLflow, Weights & Biases

EXPERIENCE

Senior ML Engineer — Infosys AI Labs, Bengaluru

July 2022 – Present

- Built a real-time NLP pipeline for sentiment analysis achieving 91% accuracy on 50M+ records daily.
- Developed and deployed deep learning computer vision model reducing defect detection time by 60%.
- Architected MLOps pipeline using MLflow, Docker, and AWS Lambda for automated model retraining.
- Led a team of 5 engineers and mentored 2 interns on ML best practices and code quality.

Software Engineer — Wipro Technologies, Hyderabad

June 2020 – June 2022

- Built RESTful APIs using FastAPI and Django serving 500K+ requests/day with 99.9% uptime.
- Designed PostgreSQL schemas and Redis caching strategies cutting query time by 45%.
- Integrated AWS S3 and Lambda functions for async data processing pipelines.

EDUCATION

B.Tech Computer Science & Engineering — IIT Madras | 2016–2020

CGPA: 9.1/10

PROJECTS

Large Language Model Fine-tuning for Code Generation

- Fine-tuned GPT-based transformer on 100K+ code samples; achieved BLEU score of 0.78.
- Deployed as a REST API on AWS with auto-scaling and monitoring via Grafana.

Real-time Object Detection System

- Implemented YOLOv8 pipeline with PyTorch for warehouse inventory tracking.
- Achieved 45 FPS inference on edge devices using TensorRT optimization.

CERTIFICATIONS

- AWS Certified Machine Learning Specialty — Amazon (2023)
- Deep Learning Specialization — Coursera / Andrew Ng (2021)
- Kubernetes Administrator (CKA) — CNCF (2022)
